## Camp Philosophy

The staff at DVSC have two simple objectives. First, we want each child to enjoy the game of soccer and have FUN!

Second, it is our goal to teach our campers the basic techniques and tactics that will enable them to experience success and further their development as a complete soccer player.

Our program of instruction reflects our belief that learning occurs through playing, not watching. We emphasize small group instruction followed by an opportunity to practice skills in game situations. Our aim is to keep the game simple and enjoyable.
